

計算をしましょう。

$$(1) \frac{5}{10} + \frac{5}{10} = \frac{10}{10} \\ = 1$$

$$(2) \frac{5}{12} + \frac{2}{12} = \frac{7}{12}$$

$$(3) \frac{5}{13} + \frac{7}{13} = \frac{12}{13}$$

$$(4) \frac{9}{18} + \frac{9}{18} = \frac{18}{18} \\ = 1$$

$$(5) \frac{8}{17} + \frac{4}{17} = \frac{12}{17}$$

$$(6) \frac{5}{11} + \frac{4}{11} = \frac{9}{11}$$

$$(7) \frac{5}{14} + \frac{9}{14} = \frac{14}{14} \\ = 1$$

$$(8) \frac{3}{16} + \frac{11}{16} = \frac{14}{16}$$

$$(9) \frac{7}{20} + \frac{6}{20} = \frac{13}{20}$$

$$(10) \frac{8}{15} + \frac{7}{15} = \frac{15}{15} \\ = 1$$
