

かけ算の九九を使って つぎの わり算を しましょう。

$$\begin{array}{l} \textcircled{1} \quad 10 \div 5 = \boxed{2} \\ \downarrow \quad \downarrow \quad \downarrow \\ 10 = 5 \times \boxed{2} \end{array}$$

$$\begin{array}{l} \textcircled{2} \quad 12 \div 2 = \boxed{6} \\ 12 = 2 \times \boxed{6} \end{array}$$

$$\begin{array}{l} \textcircled{3} \quad 14 \div 7 = \boxed{2} \\ 14 = 7 \times \boxed{2} \end{array}$$

$$\begin{array}{l} \textcircled{4} \quad 4 \div 4 = \boxed{1} \\ 4 = 4 \times \boxed{1} \end{array}$$

$$\begin{array}{l} \textcircled{5} \quad 16 \div 2 = \boxed{8} \\ 16 = 2 \times \boxed{8} \end{array}$$

$$\begin{array}{l} \textcircled{6} \quad 15 \div 3 = \boxed{5} \\ 15 = 3 \times \boxed{5} \end{array}$$

$$\begin{array}{l} \textcircled{7} \quad 24 \div 4 = \boxed{6} \\ 24 = 4 \times \boxed{6} \end{array}$$

$$\begin{array}{l} \textcircled{8} \quad 16 \div 4 = \boxed{4} \\ 16 = 4 \times \boxed{4} \end{array}$$

$$\begin{array}{l} \textcircled{9} \quad 18 \div 3 = \boxed{6} \\ 18 = 3 \times \boxed{6} \end{array}$$

$$\begin{array}{l} \textcircled{10} \quad 20 \div 4 = \boxed{5} \\ 20 = 4 \times \boxed{5} \end{array}$$
