

つぎの 計算を しましょう。

$$(1) \quad \underline{7\text{L}} + \underline{8\text{L}4\text{dL}} = 15\text{L}4\text{dL}$$

$$(2) \quad \underline{5\text{L}7\text{dL}} + \underline{4\text{L}8\text{dL}} = 10\text{L}5\text{dL}$$

	L	dL
	5	7
+	4	8
	10	5

$$(3) \quad \underline{2\text{L}9\text{dL}} + \underline{8\text{L}4\text{dL}} = 11\text{L}3\text{dL}$$

	L	dL
	2	9
+	8	4
	11	3

$$(4) \quad \underline{8\text{L}5\text{dL}} + \underline{8\text{L}7\text{dL}} = 17\text{L}2\text{dL}$$

	L	dL
	8	5
+	8	7
	17	2

$$(5) \quad \underline{15\text{L}7\text{dL}} + \underline{6\text{L}8\text{dL}} = 22\text{L}5\text{dL}$$

	L	dL
	15	7
+	6	8
	22	5

$$(6) \quad \underline{7\text{L}9\text{dL}} + \underline{25\text{L}8\text{dL}} = 33\text{L}7\text{dL}$$

	L	dL
	7	9
+	25	8
	33	7
